

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF FILE - Miscellaneous Oil Spills

DATE December 19, 1986

DEPARTMENT _____

Subject - Diesel Fuel Spill - University "66"

On Monday, December 15, 1986 at 10:30 p.m. I received a pager call from the fire department concerning a diesel fuel spill at the University "66" located at 1211 St. Louis St. Upon arriving on scene at 11:00 p.m. I observed a Tri-Lakes Petroleum Co. fuel transport truck parked adjacent to the buried fuel storage tanks. The station was closed for business. In conversation with the driver, Justin M. Brittain, P.O. Box 351, Branson, MO, he indicated that he had went to the truck's cab to do some paper work and when he went back to check the filling of the diesel fuel storage tank, diesel fuel was running out of the tank. He estimated that approximately 100 gallons of diesel fuel was lost. I gave him one of my business cards with the spill reporting numbers for both DNR and EPA. I also advised him of his responsibility to report the spill to those agencies within twenty-four hours.

Clean-up was accomplished by the spreading of sawdust to absorb the fuel. The sawdust and labor was provided by the City of Springfield. I informed Mr. Brittain that his company would be liable for those clean-up charges and would be receiving a bill from the City.
